Higher Secondary (12th)
Govt. Higher Secondary School
Coimbatore

OBJECTIVE

Experienced professional combining 6 years of sales expertise with 1 year of MERN development — bridging communication skills and technical precision to deliver efficient, scalable web solutions.

PROFESSIONAL EXPERIENCE

MERN Full Stack Developer

1 Year Experience

- Developed scalable, production-ready web applications using the complete MERN stack.
- Built responsive, mobile-first frontend interfaces and robust backend REST APIs.
- Improved application performance and delivered optimized user experiences across devices.

Sales Professional

6 Years Experience

- Managed end-to-end customer relationships, sales cycles, and business development.
- Built strong communication, negotiation, and analytical problem-solving capabilities.
- Consistently delivered results and maintained performance targets in competitive environments.

PROJECTS

MERN Stack Web Applications

16+ Projects

- Built full stack apps with React (frontend), Node.js/Express.js (backend), and MongoDB (database).
- Designed modern, mobile-first UIs using Tailwind CSS with consistent cross-device responsiveness.
- Developed and documented REST APIs, integrating third-party services and internal backend logic.
- Implemented JWT authentication, dynamic routing, CRUD operations, and real-time API integrations.
- Managed clean project architecture and version control using Git and GitHub.

KEY STRENGTHS

- Full Stack Depth** — End-to-end MERN proficiency from database design to polished UI.
- Communication & Sales** — 6 years client-facing experience — empathy, clarity, and persuasion.
- Versatile Profile** — Rare combination of business acumen and engineering precision.
